CHINMAY KASHYAP

Jaipur, India | wrkchinmay@gmail.com

Machine Learning Engineer | Cloud & Backend Software Engineer (AWS & GCP)

GitHub: github.com/Chinmayykashyap-git | LinkedIn: linkedin.com/in/chinmay-kashyap-216108307 | LeetCode: chinmayykashyap | HackerRank: wrkchinmay

SUMMARY

ML engineer and software engineering intern with experience across AWS, GCP, RAG, LLM applications, and end-to-end ML pipelines. Built a financial risk classifier with ~94% accuracy and explainable predictions; filed a patent and submitted a research paper on financial risk modeling. GSSoC 2026 open-source contributor.

EDUCATION

Manipal University Jaipur - B.Tech in Computer & Communication Engineering **Aug 2024 - Jul 2028 | Jaipur, India**

Seeking Machine Learning, Software Engineering, and Cloud Engineering internships.

EXPERIENCE

Software Engineering Intern (Cohort 3) - ServiceNow **Apr 2026 - Aug 2026**

- Built workflow automation modules with JavaScript and REST APIs inside the enterprise software development lifecycle, reducing manual intervention.
- Earned first achievement badge in Week 1; collaborated on ITSM system design and state-transition testing.

Open Source Contributor - Kestra (Open-Source Contribution) **2026 - Present**

- Kestra Core (Issue #19963, branch fix/19963-timezones-tests, commit 9c2dc0ab3, Chinmayykashyap-git/kestra, v2.1.0-SNAPSHOT): Added timeZone
- Kestra Looker Plugin (io.kestra.plugin.looker, Issue #1 / PR #2): Built tasks, triggers, WireMock tests, docs & icons (./gradlew test: 32 passed).

AI & Cloud Computing Trainee - Amazon Web Services (AWS) **Jan 2026 - Feb 2026**

- Built generative AI applications with Bedrock, SageMaker, and Lambda; configured ML inference pipelines with autoscaling and cost controls.
- Published technical article on AWS Builder Center detailing the FinSight corporate bankruptcy prediction pipeline.

Cloud Facilitator - Google Cloud Community India **Dec 2025 - Jan 2026**

- Built a Document AI pipeline on GCP (9D9P-01) with CI/CD automation (9D9P-02: Cloud Build, Artifact Registry, Cloud Deploy) and GKE (9D9P-03).

Trainee, Forward Program - McKinsey & Company | Core Member - GDG Manipal University Jaipur **2024 - 2026**

- Applied structured problem-solving frameworks to technology cases at McKinsey; organized cloud/ML workshops with GDG MUJ.

SELECTED PROJECTS

CompanyQ (HTML5, CSS3, ES6+ JavaScript, Node.js Test Suite) [chinmayykashyap-git.github.io/CompanyQ]

- Browser-based interview preparation platform covering 132 companies with 100% mock OA coverage, 65 questions across 7 formats, and 11 test suite

D.O.O.M (Python 3.11, FastAPI, Scikit-learn, SQLite, React 18, TypeScript, D3, MapLibre)

- Cargo-manifest forensics platform evaluating 12 batch tampering families (1.0000 F1, 87.5% reconstruction coverage) at 82.89 events/s (9.22 ms p50)

FinSight Risk Engine (Python, Pandas, Scikit-learn, XGBoost, SMOTE, SHAP) [AWS Builder Center]

- Evaluates 4 classifiers on 6,819 companies x 95 ratios; Random Forest + SMOTE achieves 94% accuracy, 0.950 ROC-AUC, and 77% recall (up from

Financial Risk Intelligence System (Python, Pandas, Scikit-learn, Matplotlib)

- End-to-end ML pipeline predicting corporate financial risk from 5 features (revenue, profit margin, debt ratio, current ratio, cash flow) with feature attribu

Vertex AI Financial Analyst Assistant (Python, Vertex AI, GCP, LLMs, RAG)

- LLM assistant with ingestion, embedding, and retrieval-augmented inference pipelines providing grounded answers to financial queries.

GKE CI/CD Automation Pipeline (Cloud Build, GKE, Kubernetes, Cloud Deploy, Artifact Registry)

- Automated pipeline that builds, tests, containerizes, and deploys microservices to GKE with zero-downtime rolling updates.

RESEARCH & INTELLECTUAL PROPERTY

- Patent (Filed / Pending): Method for risk assessment and transaction system optimization in financial systems.
- Research Paper (Under review): "Financial Risk Modeling and Transaction System Design."
- AWS Builder Center Article: "FinSight Risk Engine: Predicting Corporate Bankruptcy Before It Happens."

TECHNICAL SKILLS & CREDENTIALS

- ML & AI: Machine Learning, Deep Learning, LLMs, RAG, Generative AI, Prompt Engineering, PyTorch, TensorFlow, Scikit-learn, Hugging Face, Vertex
- Cloud & DevOps: AWS (SageMaker, Bedrock, Lambda), GCP (GKE, Cloud Run, Cloud Build, Document AI, Cloud Deploy, Artifact Registry, IAM), Doc
- Languages & Tools: Python, Java, C, C++, C#, JavaScript, SQL, Bash | REST APIs, ServiceNow, Pandas, NumPy, Matplotlib, Colab, Git, GitHub.
- CS & Credentials: DSA, OOP, SDLC, Agile/Scrum, Unit Testing, Code Review | Google Cloud Skill Badges, Kaggle Python Coder, GSSoC 2026, Del
